

# Urbane II Cleanflush™ Invisi II®

## Sanitary Compartment - Ambulant Applications

## 4.5/3 litre Dual Flush Toilet Suite with Wall Faced Pan and Invisi Series II® Cistern

Combining universal design and rimless pan technology, the **Urbane II Cleanflush™** is a superior flushing system suitable for domestic and commercial applications. Incorporating several patented technologies: Caroma Flow Splitter™, Caroma Flow Balancer™ and Caroma Uni-Orbital® Connector, the Cleanflush pan is innovative and the next evolution in toilets. The Flow Splitter evenly flows water around the top of the bowl to meet at the Flow Balancer which directs the water powerfully into the sump, reducing the need for brush cleaning. The rimless pan is easy to clean and unlike traditional pan profiles, provides full visibility of any grime build up. Caroma Cleanflush™ provides a cleaner clean for peace of mind. The adjustable flush pipe is a new feature for the Invisi II system. If the pan inlet hole is higher than the flush pipe due to floor tiling height variations, the flush pipe can be raised by up to 25mm.

**Important :**

Reference must be made to AS 1428.1-2021 with current amendments to determine circulation space, grab rail and installation requirements. The dimensions in this sheet may change with amendments to the standard.

**Pan:**

**Urbane Cleanflush™** wall faced back inlet 4.5 litre full flush rimless pan.
